

The Fast Cleaning Concept

## Premium Damp Mop Ocean

The Damp Mop Ocean is specially designed to be effective on structured floors and to pick-up larger dirt particles like sand and breadcrumbs. The base of the Damp Mop Ocean is made of extra long loops and therefore reaches into grouts on ceramic and other uneven floors. These properties make the mop perfect for areas such as kitchens, entrances, bathrooms, etc.

The white loops in the Damp Mop Ocean are made of ACTEX® and the blue loops are made of traditional cotton and polyester materials. ACTEX® picks up and retains dirt. The cotton functions as a water holder and the polyester distributes the water on the floor. This combination of different materials results in a very high capacity mop with the ability to pick up dirt, small and large particles and to cover large areas, whilst and still being able to moisten the floor.

Art. No:	Description:	Approx. Size:	Approx. Weight:
642290030	Damp Mop Ocean 40	43" x 13 cm 16.9" x 5.1 in	90 g 3.2 oz

Approved according to Öko-Tex Standard 100.

**Material backing:** 100% Polyester.

### How do you use the Premium Damp Mop Ocean?

Moisten the mop with water. Wring it out well so it's only slightly damp.

Only use water. No detergents or other substances.

Damp mop after dry mopping for the best possible results.

For those spots difficult to remove, step on the mop and scrub by pushing the your foot back and forth.

### Where do you use the Premium Damp Mop Ocean?

Use it for all types of floors. The design of the mop makes it specially suited for heavily soiled areas such as kitchens, entrances, bathrooms, toilets, laundries, garages and for uneven floors like ceramic floors.

### Care:

Machine wash at up to max 92°C, 198°F.

Tumble dry at up to max 92°C, 198°F.

Never use chlorine or other bleaches.

Use an environmentally friendly detergent.

Never use softeners in the rinse water.

Wash separately because the products will otherwise gather lint from other fabrics.
