

The Fast Cleaning Concept

Premium Damp Mop Polar

The Damp Mop Polar is designed to reduce friction on floors with high friction. The Damp Mop Polar is therefore especially suited for treated floors, but it's efficient on most floors, especially flat floors. It's a perfect mop for general house cleaning.

The major part of the material in the mop is made of ACTEX®, ACT's own microfibre material with 2 years performance guarantee.

The Damp Mop Polar does not leave any excess, dirty scrubbing water on the floor, which inhibits bacteria to multiply.

Material mop:

ACTEX® - 2-years performance guarantee.
Approved according to Öko-Tex Standard 100.
90% Polyester, 10% Polyamide.

Material backing:

100% Polyester

How do you use the Premium Damp Mop Polar?

Moisten the mop with water. Wring it out well so it's only slightly damp. Only use water. No detergents or other substances.

Damp mop after dry mopping for the best possible results. For those spots difficult to remove, step on the mop and scrub by pushing the your foot back and forth.

Where do you use the Premium Damp Mop Polar?

Used moist on all types of floors, walls and ceilings that withstand water, with the exception of rough surfaces like concrete. The Damp Mop Polar is specially designed to reduce friction, this property is very useful on treated floors

Care:

- Machine wash at up to max 92°C, 198°F.
- Tumble dry at up to max 92°C, 198°F.
- Never use chlorine or other bleaches.
- Use an environmentally friendly detergent.
- Never use softeners in the rinse water.
- Wash separately because the products will otherwise gather lint from other fabrics.
