

The Fast Cleaning Concept

Premium Damp Mop Ice

The Damp Mop Ice was introduced in the beginning of the 90's and has since then been ACT's best selling mop. The patented material combination and design of the mop gives it unique properties. These properties make the Damp Mop Ice highly efficient on most floors, especially flat floors and make the mop perfect for general cleaning. The major part of the material in the mop is made of ACTEX®, ACT's own microfibre material.

The Damp Mop Ice does not leave any excess, dirty scrubbing water on the floor, which inhibits bacteria to multiply. The excess water left on the floor is so little so the floor is completely dry in less than 30 seconds and ready to be used.

Material mop:

ACTEX® - 2-years performance guarantee.
Approved according to Öko-Tex Standard 100.
80% Polyester, 20% Polyamide

Material backing:

100% Polyester

How do you use the Premium Damp Mop Ice?

Moisten the mop with water. Wring it out well so it's only slightly damp. Only use water. No detergents or other substances.

Damp mop after dry mopping for the best possible results.

For those spots difficult to remove, step on the mop and scrub by pushing the your foot back and forth.

Where do you use the Premium Damp Mop Ice?

Used moist on all types of floors, walls and ceilings that withstand water, with the exception of rough surfaces like concrete.

Care:

Machine wash at up to max 92°C, 198°F.
Tumble dry at up to max 92°C, 198°F.
Never use chlorine or other bleaches.
Use an environmentally friendly detergent.
Never use softeners in the rinse water.
Wash separately because the products will otherwise gather lint from other fabrics.
