How is the Premium Window Cloth used?

Start with a dry cloth. Fold the cloth widthwise three times and you will get a total of sixteen clean surfaces to use. Spray clean water directly on the surface to be cleaned, put your whole hand on the folded cloth and wipe the surface with light sweeps.

Heavily soiled surfaces should be cleaned first with a Multi-Purpose Cleaning Cloth followed by a Window Cloth. In this case it's not necessary to spray any water on the surface.

Where is the Premium Window Cloth used?

Windows and glass surfaces.
Mirrors and crystal.
Stainless steel and other shiny metal surfaces such as brass and chrome.

Care:

Machine wash at up to max 92°C, 198°F.
Tumble dry at up to max 92°C, 198°F.
Never use chlorine or other bleaches.
Use an environmentally friendly detergent.
Never use softeners in the rinse water.
Wash separately because the products will otherwise gather lint from other fabrics.
