

Colt 800 PB

Cordless Wet/Dry Vacuum

For enhanced safety, productivity, and versatility, the battery-powered Colt 800 PB is unrivaled. It features a built-in Tool/Accessory Collar, tip-dispose base, and standard on-board battery charger. Powerful and long-running, the Colt PB is ideal for wet entryways, food and liquid spills in occupied areas, and any location where an electrical outlet is unavailable.

- This Colt's cordless design eliminates the risk of trip/fall accidents, messy cords laying across wet floors, and costly cord repairs.
- Its powerhead incorporates narrow openings and large chambers to reduce motor noise, just like a car muffler. Only 65 dbA (62 dbA with front mount squeegee), it can be used day or night in occupied areas.
- The ergonomic dual-twin handles ensure operators of all sizes always have a comfortable hand position. The front handgrips assist maneuverability when using the tip-dispose feature, especially in tight toilet stalls.
- .75 HP, 3-stage, 24V vacuum motor provides plenty of cleaning muscle for dry and wet pick-up, including stripping solution recovery. The motor is cooled by a separate stream of air to prevent damage from moisture and debris.
- With two 12V 115 amp/hour batteries, the Colt 800 PB provides over three hours of runtime. And the standard on-board battery charger means recharging is as simple as finding an electrical outlet.
- For added versatility, a 32-in. front-mount squeegee is optional.

The tank empties easily into a toilet with the tip-dispose feature.

A HEPA filter assembly is available for healthcare applications.

General Purpose Tool Kit (#7591309) is just one of a number of NSS kits available.

1 Tool/Accessory Collar keeps tools at hand, saving time when changing operation.

9 Rugged polyethylene tank and powerhead stand up to heavy-duty commercial use.

8 Ergonomic, dual-twin handle design provides increased control while reducing operator fatigue.

7 An optional HEPA filter assembly is available.

2 Built-in clips keep wands out of the way when not in use.

6 Tip-to-dispose tank allows easy emptying into most toilets and drains.

5 On-board battery charger simplifies recharging anywhere an electrical outlet is available.

3 Optional 32-in. front mount squeegee increases productivity by allowing quick wet recovery over large floor areas.

4 Large rear wheels and front casters make the Colt 800 PB extremely maneuverable.
