

Galaxy (Patented) **Floor Machine**

The Galaxy, a durable, powerful floor machine in an economical package, is precision-balanced for easy operation and maneuverability.

- Durable, heavy-duty chrome-plated base and handle for extended life.
- Ergonomic handle adjustment lever provides a comfortable custom fit without stooping or bending.
- Power cord instantly uncoils when handle adjustment lever is released.
- Convenient storage peg for brush or pad driver when not in use.
- Patented two-piece design for ease of shipping. Out-of-box assembly is a simple five-bolt operation.
- For safety, the mechanical lock-out on the handle must be released before the switch lever will activate.
- Powerful 1 HP and 1.5 HP models available in 17 inch and 20 inch widths.

Galaxy 20"	2,222	2,381	2,000	1,270	1,033

1 A mechanical lock-out on the handle must be released before the switch lever can be activated. This important safety feature prevents accidental operation.

2 The Galaxy is available with a 1 or 1.5 HP, 66-frame motor and a straight line planetary gear system, assuring efficient transfer of power from the motor to the brush.

3 The Galaxy is shipped in two pieces. The handle and base can be assembled in minutes by sliding the two pieces together and installing five bolts (patented).

4 The 360-degree base bumper protects furniture and fixtures from accidental run-ins.

7 The ergonomically-designed handle adjustment lever is located near the control handle. Releasing this lever also automatically uncoils the power cord.

6 The pad driver or brush can be placed on this convenient storage peg when the machine is not being used.

5 Offset transport wheels make the Galaxy a breeze to take anywhere needed.
